FOREWORD

The material in this publication has been compiled from the audited financial statements of the municipal corporations in the Province of Manitoba which have been submitted to this department as required by The Municipal Act. Some minor alterations have been made to the financial statements in order to present the financial information on a consistent basis for comparable purposes. For example although some municipal corporations record the water utility and the sewer utility as separate accounting entities, these utilities have been combined for the purpose of this publication, since the majority of water and sewer systems are operated as one unit and the operation cannot be separated.

This year's publication includes minor changes to the graphical presentations of the General Fund Revenue and Expenditures shown on pages 53-58.

The Comparative Summarized Statistics on pages 51 and 52 show the applicable amounts for the current year, the preceding years, 1986 and 1987, the fifth preceding year 1983, and the tenth preceding year 1978. These comparative statistics clearly illustrate the significant increases in the volume of municipal tax imposition and taxes collected over this period of time.

The immediate cash surplus or deficit of a municipality represents the difference between total cash assets of the general operating fund and funded reserves, and total current liabilities of the general operating fund, as at the end of the calendar year. The summary shown on page 52 illustrates a net improvement in the aggregate cash position of municipalities from December 31, 1987 to December 31, 1988. An analysis of individual municipalities shown on pages 10-13 will show that 139 municipalities improved their cash position during the year, with 62 municipalities showing a cash impairment.

General operating funds and funded reserves of municipalities also include investments in the amount of $11,917,419, which are included in the analysis of investments on pages 46-47 of this publication. Also included in the analysis are trust investments of $909, 127, 097, most of which are held in sinking funds and employee pension funds as shown on pages 18 and 19.

AVANT-PROPOS

Cet ouvrage est le résultat de la compilation des états financiers vérifiés des municipalités manitobaines, soumis à notre ministére en vertu de la Loi sur les municipalités. Nous avons dû parfois modifier quelque peu ces états financiers, de façon à en faciliter l'étude comparative. Par exemple, lorsqu'une municipalité avait à son bilan deux postes distincts pour ses services d'alimentation en eau et d'égout, nous les avons fondus en un seul puisque la plupart des municipalités possèdent un réseau d'aqueduc et d'égout qu'elles exploitent en bloc, rendant ainsi impossible toute distinction administrative.

Les représentations graphiques des recettes et des dépenses des fonds d'administration générale figurant aux pages 53 à 58 ont été quelque peu modifiées cette année.

Dans les tableaux comparatifs des pages 51 et 52 figurent les chiffres de l'année courante, ceux des années 1986 et 1987, et ceux d'il y a cinq et dix ans, soit 1983 et 1978. Ces tableaux font clairement ressortir l'augmentation considérable des taxes municipales et des sommes perçues au cours de la période visée.

La situation de trésorerie d'une municipalité représente l'écart entre l'encaisse de son fonds d'administration générale ainsi que des réserves provisionnées et le passif à court terme de son fonds d'administration générale, à la fin de l'année civile. Vous trouverez à la page 52 un sommaire illustrant une amélioration de la situation globale nette des municipalités du 31 décembre 1987 au 31 décembre 1988. L'analyse par municipalité qui est présentée aux pages 10 à 13 démontre que la situation de trésorerie de 139 municipalités s'est améliorée au cours de l'année tandis que 62 autres ont enregistré un déficit.

Les fonds d'administration générale et les réserves provisionnées des municipalités comprennent des investissements dont le montant global s'élève à 11 917 419 $. Ces investissements figurent dans l'analyse des investissements qui se trouve aux pages 46 et 47 de la présente publication. Les placements fiduciaires, d'une valeur de 909 127 097 $, sont également inclus dans ces tableaux; it s'agit principalement de fonds d'amortissement et de caisses de retraite pour les salariés, dont les données se trouvent aux pages 18 et 19.
